DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-14 and 26, drawn to a rack mount data storage system, classified in class 361, subclass 727.
 - II. Claims 15-25, drawn to a data storage subsystem, classified in class 361, subclass 687.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as a general purpose computer system (see description, page 17, lines 7-15). See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. During a telephone conversation with Mr. David E. Huang, Esq., Reg. No. 39,229 on 07/27/2005 a provisional election was made without traverse to prosecute the invention of group I, claims 1-14 and 26. Affirmation of this election must be made by applicant in replying to this Office action. Claims 15-25 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Art Unit: 2835

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

EXAMINER'S AMENDMENT

6. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. David E. Huang, Esq., Reg. No. 39,229 on 07/27/2005.

The application has been amended as follows: cancel claims 15-25.

7. The following is an examiner's statement of reasons for allowance: Claims 1-14 and 26 are allowable over the prior art of record for at least the reason that the prior art fails to teach or suggest a rack mount data storage system comprising a rack mount cabinet; a power supply subsystem having a plurality of power supplies and a power supply cooling assembly providing air flow horizontally from a front of the rack to a back of the rack; a disk drive subsystem having a set of disk drives and a disk drive cooling assembly providing air flow horizontally from a front of the rack to a back of the rack; and a data storage circuitry subsystem including a housing, a set of circuit boards

Art Unit: 2835

defining a set of vertical channels, and a fan assembly mounted in a position above the housing .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

8. Uno et al (US Patent 6,088,660) teach a rack mount data storage system comprising a rack mount cabinet; a power supply subsystem having a plurality of power supplies and a power supply cooling assembly providing air flow horizontally from a front of the rack to a back of the rack; a disk drive subsystem having a set of disk drives and a disk drive cooling assembly providing air flow horizontally from a front of the rack to a back of the rack. However, Uno et al do not teach a data storage circuitry subsystem including a housing, a set of circuit boards defining a set of vertical channels, and a fan assembly mounted in a position above the housing.

8. The prior art made of record provided in the PTO Form 892 and not relied upon is considered pertinent to applicant's disclosure.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael V. Datskovsky whose telephone number is (571) 272-2040. The examiner can normally be reached on 8-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lynn Feild can be reached on (571) 272-2092. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
